A FREE MONTHLY PUZZLE FORUM FOR EDUCATORS

### WELCOME

Welcome to a sample of our new monthly puzzle newsletter "The Classroom PUZZLER".

The Classroom PUZZLER will be published 10 times a year from September to June. Each issue will be placed on our website at the first of each month and be downloadable for easy access in adobe format.

The Classroom PUZZLER will feature free puzzles each month for teachers to use. It will bring readers news about new Classroom Puzzler packages that we will have developed for sale; and hopefully it will be a forum for teachers to exchange puzzle ideas that have worked successfully with students in their classrooms, and made learning fun for students. This publication is directed towards middle and high school students, Grades 7 to 12.

All puzzles, puzzle ideas and teaching notes in The Classroom PUZZLER may be used freely by teachers with students. Here are some examples..

### COMPUTER ICONS

We use computers everyday, but do we recognize all these well used computer icons?

A. \_\_\_\_\_

B. \_\_\_\_\_

C. \_\_\_\_\_

D. \_\_\_\_\_

E. \_\_\_\_\_
